RE: Atherton Mill Sanitary Sewer Line Replacement: Part II - 2000 South Blvd, Charlotte NC 28203

Dear Mr. McCarty,

Please accept this letter as our request to replace approximately 115 feet of existing 4" cast iron sanitary sewer pipe that serves the interior hallway bathrooms, and runs out to the city connection in the parking lot at the Atherton Mill Shopping Center. The existing deteriorated pipe will be replaced with new 4" PVC material, and the excavation depth is approximately two feet deep.

Soils excavated during this project will be set aside and tested by AMEC Foster Wheeler for proper handling. Attached is a site plan that identifies the location of the project area.

Should you have any questions regarding this matter, please feel free to contact me at the number below.

Best Regards,

Regional Property Manager
